Quantity Discount Program

You may “mix and match” any combination of SL300/CP185/CP200d/PR400 portable models and/or CM200d/CM300d mobile models (“Radio Units”) on a single order and receive the appropriate quantity discount for each model. Quantity discounts are calculated and granted at the time a new order is placed (“Qualifying Order”). Additional Radio Units added to the Qualifying Order will be charged at the single Radio Unit price without discount. Deleting or cancelling Radio Units from a Qualifying Order will be viewed as a new Qualifying Order and reseller will receive the discount offered (if any) for the number of Radio Units actually shipped. All Radio Units must be shipped at the same time in order to qualify for the corresponding product models quantity discount. Change order requests or Radio Units returns that extend, stagger or otherwise change the number of Radio Units actually purchased in a single shipment, will result in a charge to the reseller’s account for the difference in price between the number of units purchased and the quantity discount reseller qualified under a Qualifying Order. Special quantity discounting valid through December 31st, 2015.
